EST.  USA

2023 VOLUME THREE

DR. COMFORT® PROUDLY CARRIES THE AMERICAN
PODIATRIC MEDICAL ASSOCIATION SEAL OF
ACCEPTANCE ON PRODUCTS AS INDICATED.

At Dr. Comfort® we understand the importance of foot care and are committed to helping people get back on their feet. With over 100 years of combined experience in foot care, footwear knowledge and pedorthic training, our team of educators know a thing or two about proper foot health.

Our shoes are available online and through healthcare providers who specialize in foot health. Proper footwear can help prevent more serious complications for those at risk. If you qualify, Medicare or other insurances may help cover the cost*.

*Your doctor or one of our providers can help determine if you qualify. To find a local provider visit drcomfort.com or call at 800.556.5572.

You must properly maintain and care for your shoes. Cease using immediately and call your doctor if you have any signs of blisters, pain, swelling or other indications which could cause damage to your feet.

The Dr. Comfort® Difference

Extra Depth Options

Deeper than a regular shoe to accommodate hammertoes, swelling and foot/ankle braces. Our Double Depth styles are even deeper.

Extra Wide Widths

All of our diabetic shoes come in Medium, Wide and Extra Wide widths.

Easy On/Off Closures

Our shoes have a variety of closure styles like lace, no-tie elastic or hook-and-loop to help meet your dexterity needs.

Large Toe Box

The large toe box allows space to accommodate bunions, hammertoes, swelling and high instep.

Custom Orthotics Available

Visit a Dr. Comfort footwear provider to order custom-made orthotics or diabetic inserts for your shoes.

Stability

Revolutionizing the way you walk, our Stability outsole is designed to help provide enhanced support and prevent overpronation. Athletically-inspired shoes that are bold, comfortable and performance-focused.
(PDAC Approved)

- Wider sole helps provide enhanced stability
- Increased width of toe box provides extra comfort and accommodation
- EVA and rubber outsole provides a layer under foot for added support and comfort
- Firm medial rearfoot helps prevent overpronation

Diane, Grace, Ruth, Gordon, Jack, Roger, Peter (not shown), Theresa (not shown), Steve (not shown), Angela (not shown).

note: Stability sole contains latex.

ORDER WITH THE COMFORT SCAN MOBILE™ APP

Help give your office the cutting-edge technology to order custom orthotics for your patients in minutes! The Comfort Scan Mobile™ App was developed for an easy to use, fast turnaround method of ordering all custom products. With the app, providers are able to take a 3D scan of their patient's foot and submit the image and order form in a few simple steps.

Search Dr. Comfort
in the app store and
select Dr. Comfort
Mobile Scan App.
